

Vital Zymes Complete

Potent, full-spectrum enzyme blend for maximal support of intestinal function.

This high-potency, multi-enzyme formulation offers an unusually complete range of plant/microbial-based enzymes that help maintain normal enzyme levels that support the body's digestive capabilities and assist intestinal repair mechanisms. The broad-spectrum combination of enzymes in Vital-Zymes™ Complete maximizes the breakdown, absorption, and utilization of macronutrients from the widest spectrum of foods, including proteins and protein peptides, carbohydrates, disaccharides, and sugars, lipids/fats, and vegetable fibers. As such, Vital-Zymes™ Complete can support those with compromised gastrointestinal function.

ATTRIBUTES OF VITAL-ZYMES™ COMPLETE

- Delivers a full complement of high-activity enzymes in two capsules
- Contains highly purified, filtered enzymes to meet needs of those with food-sensitivities
- Free of all maltodextrin (wheat, rice or corn derived) commonly used as a base in enzyme raw materials
- Contains no porcine or other animal-derived enzymes
- Avoids fruit-derived enzymes (bromelain, papain, kiwi) for maximum tolerance
- Active across a broad range of pH conditions (2 to 10) for maximum benefit throughout the entire intestinal tract
- Supplies a full-spectrum of disaccharidases (lactase, maltase, sucrase/invertase, pullulanase, and isomaltase) to assist cleaving of sugars that may be fermented by pathogenic organisms and contribute to dysbiosis
- Assists protein breakdown but avoids excessive amounts of proteases that may irritate or inflame GI tissues
- **Dipeptidyl peptidase IV (DPP-IV) activity supports optimal cleaving of casein and gluten and their exorphin peptides (casomorphin and gluteomorphin)**
- Supplies Serratia peptidase enzyme to help protect sensitive GI tissues from irritation and lysozyme for its unique lysing action on bacterial and yeast cell walls

Amount Per 2 Capsules

Comprehensive Enzyme Blend 800 mg *

With the following minimum enzyme activity:

Carbohydrate Specific Enzymes

Amylase 1,830 BAU (80,000 MWU) *

Alpha Amylase 100 DU *

Glucosylase (with isomaltase side chain activity) 30 AGU *

Sugar Specific Enzymes

Lactase 1,500 ALU *

Sucrase (invertase) 135 INVU *

Maltase 200 DP (300 MWU) *

Pullulanase (debranching enzyme with isomaltase side chain activity) 25 PUN *

Vegetable/Plant Fiber Specific Enzymes

Cellulase 500 CU *

Hemicellulase/Pectinase Complex 200 HSU *

Phytase 10 FTU *

Beta Glucanase 20 BGU *

Alpha-Galactosidase 40 GalU *

Galactomannase 200 HCU *

Protein and Peptide Specific Enzymes

Acid Protease 50 SAP *

Alkaline Protease 50 PC (DAPU) *

Protease/Peptidase Complex **with DPP-IV** endo-peptidase/exo-peptidase activity 200,000 DPPU (40,000 HUT) *

Fat Specific Enzymes

Lipase 1,500 FCC (15,000 LU) *

Other Enzymes

Lysozyme (from egg white) 100,000 SHU *

Serratia peptidase (enteric-coated)** 2,500 SPU *

Suggested Use: As a dietary supplement take two capsules at the beginning of each meal or as directed

Caution: Individuals with known egg white allergy should consult their physician before using this product.

Free of the following common allergens: milk/casein, fish, shellfish, tree nuts, peanuts, wheat/gluten, corn, yeast, and soybeans. No sugar, magnesium stearate, maltodextrin, artificial sweeteners, colors, flavors, salicylates, or preservatives.

* Units are those used in edition five (V) of the food chemical codex (FCC)

** Peptizyme SP®, a registered trademark of Specialty Enzymes.
